

MONOCOUCHE

Textured Coating Fine to Medium

DESCRIPTION :

Monocouche is novelty water based latex coating designed for adding grandeur to individual's household property and is suitable for both interior and exterior concrete and plaster surfaces. It is an air drying coating devoid of lime and cement. A commendable feature of this product is that it gives high film thickness per coat without any cracking problems under severe climatic conditions. The longevity of this coating coupled with labor saving application is the outcome of effective combination of its constituents.

PHYSICAL DATA:

Binder	: Acrylic copolymer
Pigments	: Titanium dioxide and / or colour pigments and selected aggregates
Appearance	: Flat ! Fine to medium textured finish
Colours	: White and colors
No. of Components	: One
Specific gravity	: Approx 1.7
Solids by volume	: Approx. 77%
Drying times at 30°C	: Touch Dry : 40 minutes Hard Dry : 2 - 4 hours Recoat : 24 hours
Flash Point	: Non Flammable

APPLICATION DATA:

Application method	: Roller – Air Spray – Airless Spray
Type of Thinner	: Water
Percentage of Thinner	: Max. 5%
Coverage	: 1- 1.5 m ² /kg or 1.7 – 2.5 m ² /L

Special pressed pattern can be achieved by using a plastic roller before the sprayed coating dries completely. To prolong drying time use **Okay Retarder**.

REMARKS:

Monocouche provides an ideal decorative finish to precast concrete areas. It is suitable for application on gypsum board and plaster. Especially developed for humid climate areas, providing long life without maintenance. For better coverage apply one coat of latex undercoat instead of latex sealer.

NOTE :

A coat of water based varnish is recommended to give glossy appearance. This will also help minimize dust collection and to give excellent gloss and colour retention property to the coating under exterior/interior exposure.

SHELF LIFE AND STORAGE:

12 months from production date if stored in its original tightly closed container in a dry place away from direct sunlight and excessive heat.
